

AMT
American Medical Technologists
Certifying Excellence in Allied Health

Dear Employer of an AMT Certified Health Professional,

Your employee has achieved certification through American Medical Technologists (AMT), whose members are competent, professional, and dedicated to the highest level of patient care. Why not help them keep this edge? Invest in your practice and your employee by allowing time off and paying for expenses to attend the AMT Annual Meeting July 21-24, 2025, in Pittsburgh, PA.

At this event, participants can earn 15 CE credits toward fulfilling the requirements to maintain professional certification. Expect your employee to return from this meeting with expanded knowledge and the excitement to share what they have learned with you, your staff, and your patients.

View the full meeting program at <https://americanmedtech.org/CE-Meetings/Meetings/Annual-Meeting> for complete details. Your employee will return inspired to make a difference in your practice!

Sincerely,

Kathy Cilia, MT(AMT), CAE
Executive Director
American Medical Technologists
