CCP Guidance Document

Although there are no fees associated with CCP specifically, an **annual renewal fee** is required to maintain your active and certified member status.

**What Qualifies for CCP?**

See the chart below for categories and examples for CCP. As a general rule, if your activity relates to a specific item on the exam content outline of your AMT certification, the activity will qualify. [View your specific exam content outline](#).

Generally, AMT will accept any activity that meets at least one of the following criteria:

1. Does it help you do your (health care) job better?
2. Does it advance your knowledge in the healthcare field?
3. Does it prepare you for an advanced management or health care degree or a different program of study in health care?

**Tracking CCP Points**

*CCP points are due every 3 years at the end of your certification cycle.*

- Record your CE from your [AMT Portal](#)
  - Collect, record, and track your activities online for each 3-year cycle.
  - Automatically roll into your next CCP cycle when points are recorded online, and your annual fees are paid.
  - AMT CE points from online activities are automatically recorded.
  - AMT does not accept documents for review and entry unless selected for the Annual CCP Audit or Recertification purposes.

**Be Prepared for a Compliance Audit**

Each year AMT performs an audit of compliance with CCP. Those randomly selected for an audit must produce supporting documentation for the CCP activities they’ve attested to. AMT strongly recommends that members keep supporting documentation in a file to submit to AMT upon request. Those who cannot demonstrate their compliance will be decertified and must recertify to regain an active and certified status.

**Recertification**

If you are applying to recertify by demonstrating your complicate with CCP, you must submit supporting documentation verifying participation in all stated activities totaling the required number of points. The activities must have been attained within the past 3 years. If clear criteria have not been met, you will need to defend your claimed points and why you believe they qualify.
