

Delegate Report
Annual Meeting Scottsdale AZ
Lori Bedford AMT ID 2885620

My experience with this 2022 annual meeting has been inspiring! It sets things back in order on how important and engaging AMT is with our members and the subjects that concerns them. I have seen firsthand how the Board of Directors of the AMT sat and listened to our concerns about certain issues and will be taking them into consideration.

I also learned that this organization is member driven which is very different from other certifying bodies that are out there. I intend to make a set plan to recruit more members starting at the student level for VSSAMT. I will strive as much as possible to be a positive force for our student society at Centura College. In addition, I will instill in them the importance of becoming an active member of VSSAMT.

I also had the opportunity to voice a strong opinion of the retirement of a committee that I feel still has its purpose and use. I gained some valuable CE's and collected other state society pins and made some great connections.

I look forward to the even that will take place in July 2023 in my area of Norfolk, VA.

Respectfully submitted,

Lori Bedford
