

## AMT Standards of Practice

The American Medical Technologists is dedicated to encouraging, establishing and maintaining the highest standards, traditions, and principles of the disciplines which constitute the allied health professions of the certification agency and the Registry.

Members of the Registry and all individuals certified by AMT recognize their professional and ethical responsibilities, not only to their patients, but also to society, to other health care professionals, and to themselves.

The AMT Board of Directors has adopted the following Standards of Practice which define the essence of competent, honorable and ethical behavior for an AMT-certified allied health care professional. Reported violations of these Standards will be referred to the Judiciary Committee and may result in revocation of the individual's certification or other disciplinary sanctions.

- I. While engaged in the Arts and Sciences that constitute the practice of their profession, AMT professionals shall be dedicated to the provision of competent and compassionate service and shall always meet or exceed the applicable standard of care.
- II. The AMT professional shall place the health and welfare of the patient above all else.
- III. When performing clinical duties and procedures, the AMT professional shall act within the lawful limits of any applicable scope of practice, and when so required shall act under and in accordance with appropriate supervision by an attending physician, dentist, or other licensed practitioner.
- IV. The AMT professional shall always respect the rights of patients and of fellow health care providers, shall comply with all applicable laws and regulations governing the privacy and confidentiality of protected healthcare information, and shall safeguard patient confidences unless legally authorized or compelled to divulge protected healthcare information to an authorized individual, law enforcement officer, or other legal or governmental entity.
- V. AMT professionals shall strive to increase their technical knowledge, shall continue to learn, and shall continue to apply and share scientific advances in their fields of professional specialization.
- VI. The AMT professional shall respect the law and pledges to avoid dishonest, unethical or illegal practices, breaches of fiduciary duty, or abuses of the position of trust into which the professional has been placed as a certified healthcare professional.
- VII. AMT professionals understand that they shall not make or offer a diagnosis or dispense medical advice unless they are duly licensed practitioners or unless specifically authorized to do so by an attending licensed practitioner acting in accordance with applicable law.
- VIII. The AMT professional shall observe and value the judgment of the attending physician, dentist, or other attending licensed practitioner, provided that so doing does not clearly constitute a violation of law or pose an immediate threat to the welfare of the patient.
- IX. AMT professionals recognize that they are responsible for any personal wrongdoing, and that they have an obligation to report to the proper authorities any knowledge of professional abuse or unlawful behavior by any party involved in the patient's diagnosis, care and treatment.
- X. The AMT professional pledges to uphold personal honor and integrity and to cooperate in protecting and advancing, by every lawful means, the interests of the American Medical Technologists and its Members.
